EDUCATION

Mar. 2019 ~	Hallym University	Chuncheon, Korea
Feb. 2015	Division of Software, Major in Big Data	
	GPA : 3.9 / 4.5	
	Major GPA : 3.93 / 4.5	

FIELD OF INTERESTS

- Multimodal Learning
- Computer vision
- Time series analysis

WORK EXPERIENCES

Mar. 2022 ~	AIAC Lab (AI Accelerator Computing Lab)	Hallym. Univ
April. 2025	– Adviser: Prof. Jeong-Gun Lee	
Jan. 2025 ~	Intern	Electronics and Telecommunications Research Institute (ETRI)
Feb. 2025		

PROJECT

Oct. 2024 ~	AHI Classification using Patient's Face Image
Jan. 2025	- Transformer based sleep apnea severity prediction through facial features
Oct. 2024 ~	Boundary Unlearning implementation (Boundary Unlearning)
	- Model implementation introduced by Chen et al.
Feb. 2024 ~	Capstone design – YoungYangGang (AI Github)
Jun. 2024	- Personalized healthcare applications based on object detection and OCR
Aug. 2023	The 10th Korea SW Convergence Hackathon
	- New service planning and service development using ship operation data

PUBRICATION

“Performance Evaluation of the Single-epoch Model for Real-Time Sleep Stage Classification”

SeungHun. Oh, DongYoung. Kim, JeongGun. Lee (Joint Conference on Communications and Information, JCCI 2023)

Short Summary: The objective is to perform real-time sleep stage classification, utilizing only single-epoch models instead of multi-epoch models. (SHHS dataset, sleep stage classification)

“Improving the performance of Sleep Stage Classification prediction models using AutoEncoder and Contrastive Learning”

SeungHun. Oh, DongYoung. Kim, JeongGun. Lee (Annual Symposium of KIPS, ASK 2024)

Short Summary: Sleep Stage Classification using AutoEncoder with Contrastive Learning and Its Performance Analysis (SleepEDF-78, EEG, Fpz-Cz)

“PixleepFlow: A Pixel-Based Lifelog Framework for Predicting Sleep Quality and Stress Level”

SeungHun Oh , SungJi Ko, YoungHoon Na, Hyunkyung Lee (International Conference on ICT Convergence, ICTC 2024)

Short Summary: ICTC Workshop on ETRI Human Understanding AI Paper Challenge(IWETRAIAL), Using Lifelog dataset to recognize and infer various indicators from everyday experiences.

AWARDS

Feb. 2025	Hallym University Achievement Award - Hallym University Presidential Award
Nov. 2024	2024 Hallym University AI Competition (Image Restoration) -2nd prize - Hallym University’s SW Director Award
Oct. 2024	Etri Human Understanding Artificial Intelligence Papers Competition (Time Series Data) – 1st prize - Minister of Science and ICT Award
Aug. 2024	Joint AI Competition of SW Univ 2024(Domain Adaptation) – 4th prize - Special Award
Nov. 2023	Joint AI Competition of SW Univ 2023(Image Segmentation) – 4th prize - Encouragement award
Aug. 2023	2023 Hallym University AI Competition (Image Classification) - 1st prize - Hallym University Presidential Award
Nov. 2022	2022 Military AI Competition (Image Restoration) – 4th prize - Special Award
